The hidden letters “B-T” indicate that the die was approved in late 1935. The initial production was separated by *coarse roulette*, and the later production by *fine roulette*. BABN records indicate that the plate was prepared for 20 stamps - (probably 2 x 10).

The control on this final strip actually reads as **32,658,922**. The following strips were issued for use without control numbers.

--- 50 Cigars - Series "C" - 145 x 22 mm. design - scanned at 100% scale ---

--- recess printed on medium wove paper, with a *vertical* mesh ---

The catalogue lists the recess printed fifty cigar Series "C" black *control-free* strip as follows:

RG-647 - 50 cigars, black, fine roulette, on vertical mesh wove - issued *without control numbers*

--- RG-647 - *coarse roulette* - used *without* control numbering ---

In the mid-1960's, copies of the fifty cigar Series "C" were issued for use ***without*** control numbers. These *late-usage* copies are printed on medium weight crisp wove paper, with a *linear composite* mesh - almost with *modern laid paper* lines, but not nearly as dramatic as the laid paper of the 1860's. It doesn't seem to matter how one holds the stamp - the mesh appears to be *horizontal* when held in one direction, and *vertical* when held in the opposite direction.

★**RG-647** - 50 cigars, black, *fine roulette*, on *linear composite* mesh wove, without control numbering
